

MWANZO COMMUNITY CENTER

Mwanzo is embarking on a capital campaign to build a community center in Rabuor Village. This two-story building will house Mwanzo's Early Childhood Development (ECD) program, a computer lab with internet services, a health clinic, a library, a multi-purpose room, and Mwanzo's Kenya office.

AT A GLANCE: GROUND FLOOR

As Mwanzo Wetu Center of Excellence Academy (MWCEA) fully enrolls Grades 1-8, Mwanzo's **ECD program** is in need of a new space for its 52 students to grow and learn safely

A **computer lab** with internet services will create access to job and government program information for 20-30 community members per day

In partnership with Chulaimbo Health Center, community members and MWCEA's 180 students will receive treatment for minor illnesses at the **health clinic**

AT A GLANCE: SECOND FLOOR

Students and community members can access books to foster learning in the **library**

A **multi-purpose room** will host agricultural trainings, health education, savings and loan group sessions, and Parent Teacher Association meetings

Mwanzo's Kenya staff will carry out work duties in an **office**

Health and sustainability

The building will use existing infrastructure for water collection, sanitization, and wireless internet, and receive electricity from solar panels.

10,000 people

live within a 5-kilometer radius of Rabuor Village and will benefit directly and indirectly from the community center with a healthier and more economically stable community.

Timeline: 2021-2023
